- Results of priority marking review requests notified to schools - **26 August**

Results of SQA Post Result Services will be notified to schools on 27 September 2019

Please note:

- PRS (marking review) requests must come from the school itself.
- Any request made **must be based on a change in letter grade** and not only a change in band.
- The school can only consider making a PRS request **where there is evidence of consistent performance throughout the year and over a full range of assessable elements.**
- The school will always consider a PRS request where strong evidence exists to support it.
- By agreeing to a PRS request, pupils and parents acknowledge that the grade may go down as well as up.
