

Multiplying

Complete the multiplications.

1. $7 \times 30 = \underline{\hspace{2cm}}$

2. $9 \times 40 = \underline{\hspace{2cm}}$

3. $4 \times 60 = \underline{\hspace{2cm}}$

4. $5 \times 70 = \underline{\hspace{2cm}}$

5. $70 \times 7 = \underline{\hspace{2cm}}$

6. $80 \times 3 = \underline{\hspace{2cm}}$

7. $90 \times 7 = \underline{\hspace{2cm}}$

8. $9 \times 60 = \underline{\hspace{2cm}}$

9. $7 \times 400 = \underline{\hspace{2cm}}$

10. $500 \times 4 = \underline{\hspace{2cm}}$

11. $8 \times 800 = \underline{\hspace{2cm}}$

12. $6 \times 800 = \underline{\hspace{2cm}}$

13. $9 \times 3000 = \underline{\hspace{2cm}}$

14. $8 \times 90 = \underline{\hspace{2cm}}$

15. $700 \times 6 = \underline{\hspace{2cm}}$

16. $90 \times 5 = \underline{\hspace{2cm}}$

17. $3 \times 600 = \underline{\hspace{2cm}}$

18. $6000 \times 6 = \underline{\hspace{2cm}}$

19. $3 \times 6000 = \underline{\hspace{2cm}}$

20. $8000 \times 4 = \underline{\hspace{2cm}}$

I can use my knowledge of table facts and multiplying by ten, a hundred, or a thousand, to work out new facts
