

Creating equivalent fractions

Write the missing numbers to make pairs of equivalent fractions.

1. $\frac{1}{3} = \frac{\text{cloud}}{6}$

2. $\frac{\text{cloud}}{4} = \frac{3}{6}$

3. $\frac{2}{3} = \frac{\text{cloud}}{6}$

4. $\frac{\text{cloud}}{8} = 1$

5. $\frac{1}{2} = \frac{\text{cloud}}{16}$

6. $\frac{3}{6} = \frac{\text{cloud}}{12}$

7. $\frac{\text{cloud}}{4} = \frac{9}{12}$

8. $\frac{\text{cloud}}{2} = \frac{3}{6}$

9. $\frac{6}{8} = \frac{\text{cloud}}{12}$

10. $\frac{1}{2} = \frac{\text{cloud}}{4}$

11. $\frac{\text{cloud}}{4} = \frac{6}{8}$

12. $\frac{\text{cloud}}{4} = \frac{3}{12}$

13. $\frac{3}{4} = \frac{\text{cloud}}{16}$

14. $\frac{1}{2} = \frac{\text{cloud}}{12}$

15. $\frac{1}{3} = \frac{\text{cloud}}{12}$

16. $\frac{\text{cloud}}{4} = \frac{4}{8}$

17. $1 = \frac{\text{cloud}}{6}$

18. $\frac{\text{cloud}}{10} = \frac{2}{5}$

I can find a way to work out equivalent fractions
