

Rounding in calculations

Complete the table.

Calculation	Estimate with rounding both numbers	Actual answer of calculation	Difference between actual answer and estimate	Estimate with choosing one number to round	Difference between actual answer and new estimate
$82 + 36$	$80 + 40 = 120$	118	2	$80 + 36 = 116$	2
$38 + 44$					
$67 + 24$					
$78 + 14$					
$38 + 52$					
$65 + 74$					
$16 + 84$					
$96 + 46$					

What do you notice?

I can round in addition and see how accurate this is
